# Award Program

## Purpose Of Our Award Program

The AAWM Association, and more particularly its various Award Programs, were designed to supply formal recognition and acknowledge the hard work and dedication that each applicant has put into constructing their web sites using their own brand of style creativity, and content. It is to these sites that we owe our thanks as they are the primary reason that our Award Program is growing so rapidly and gathering so much critical acclaim in the world of the Internet. The AAWM Awards was also created for those Webmasters
