Globi Wins Gold Design Award

As one of Worlds peak internet bodies, the Awards of The World Wide Web Awards are amongst the most prestigious available and hence, amongst some of the more difficult to win on the web.

And so Congratulations! goes to Globi Web Solutions as being selected to receive the World Wide Web Awards "Gold" Award. We see all the hard work and dedication that you have put into constructing your web site and your efforts are well deserved. Your site displays: A clean and organized design, user friendliness, quality content and informative information for your visitors.

The Gold Award represents Web Presence at its best. To achieve this award is truly an honor. The winning site has scored between 90 and 100 points, which was not an easy task. A Gold award winning site is error free from broken links and error messages of any kind. Correct use of Meta tags and ALT tags have been used, which most search engines have picked up on "keywords" used in the "Meta Tags". This site uses advanced features, scripts and coding. Graphic Design is of the highest quality and original works of art, created by the site designer. The Gold Award site represents at least 95 percent of original content and creativity and provides outstanding design and layout of website. Its content is something that will interest any and all visitors, who visit their site.

Sincerely,

Awards Committee - Donna Snyder - CEO
