## Water association receives website awards

DENVER — The American Water Works Association's website has won five awards for its design, according to an AWWA news release.

The American Association Of Webmasters (AAW), which recognizes webmasters and designers who have shown outstanding achievement in web design content and creativity, presented the AWWA with the Gold Award, which is the highest honor awarded by the AAW. The award was given to AWWA for constructing a site with "excellent design and layout, along with quality content and informative information," the release said.

The AWWA also received the DesignFirms.org Web Design Award, according to the release.

In addition, the Colorado Press Women awarded 1st Place to the AWWA for WaterWiser, 3rd Place for the Career Center and an Honorable Mention for the Consumer Water Center, all part of the AWWA website, the association reported.

Cha Snyder, AWWA Web Operations Manager said in the release, "We strive to provide timely and applicable information on the drinking water profession, and our dedicated staff works constantly to provide this information in a way that is easy and effective."

The site can be accessed at [www.awwa.org](http://www.awwa.org).
