

Virginia Website Design Company, Affordable Web Design and E-Commerce Development, Inc., Wins Golden Web Award

The Virginia based website development company, Affordable Web Design and E-Commerce Development, Inc. was selected as a Golden Web Award winner for its website design portfolio.

Gainesville, VA (PRWEB) June 24, 2006 -- [Affordable Web Design and E-Commerce Development, Inc.](#) has won the most sought-after award available on the World Wide Web, the Golden Web Award. In May of this year, the company's website design portfolio was reviewed by the American Association of Webmasters and chosen to receive the prestigious Golden Web Award. The award honors web designers and professionals that excel in web design, content and creativity.

"We are proud that our web design services have achieved levels of excellence deserving of recognition by the AAW," said Mr. Yildirimturk, President of Affordable Web Design, Inc. "We are not just graphic designers, we are also experienced internet programmers. Therefore, not only do we create web pages, we create search engine friendly web sites to enhance online business. We want to build our clients' business image and increase their sales."
